Okutou Hasumi

Octopus Girl

- Four cephalopod-like tentacles sprout from her hips, while another four sprout from her lower back-making eight in total.

- The suckers on her tentacles have the ability to stick to things. As the suckers are clumps of muscles, their grip is strong, making it possible for her to stick to the ceiling.

- The tentacles are capable of delicate movement, though they do get tangled together now and then.

- When she gets nervous, the shape of her pupils change and slime seeps from her tentacles.

MAD SHURIKEEN

X Mad-san is enjoying his solitary confinement by entertaining himself.

Last Time
In the subterranean city of Asuchi Mad Shuriken infiltrated the shadow corporation Nishizawa Matrix and had a showdown with corporate bodyguard Vain Vein. Evading his vital king technique, Mad opted for his usual dirty tricks to completely annihilate the opponent, or so he thought! In truth, it was all just a pheromone-based illusion from Pavilion, a woman from the underground General Affairs division.

READING DIRECTIONS

This book reads from *right to left*, Japanese style. If this is your first time reading manga, you start reading from the top right panel on each page and take it from there. If you get lost, just follow the numbered diagram here. It may seem backwards at first, but you'll get the hang of it! Have fun!!

A RARE GLIMPSE!

Health class held at the pool can only mean one thing: swimsuits! The students are all-eyes for Nurse Hitomi's bathing wear—until hairy Moji-sensei makes a big reveal, that is! Followed by tales of Hitomi-sensei and Tatara-sensei's school days, and a trippy story of reality vs. fiction, the revelations just keep coming in this monstrous slice of high school life!

Will Hitomi-sensei's "little brother" finally appear?
